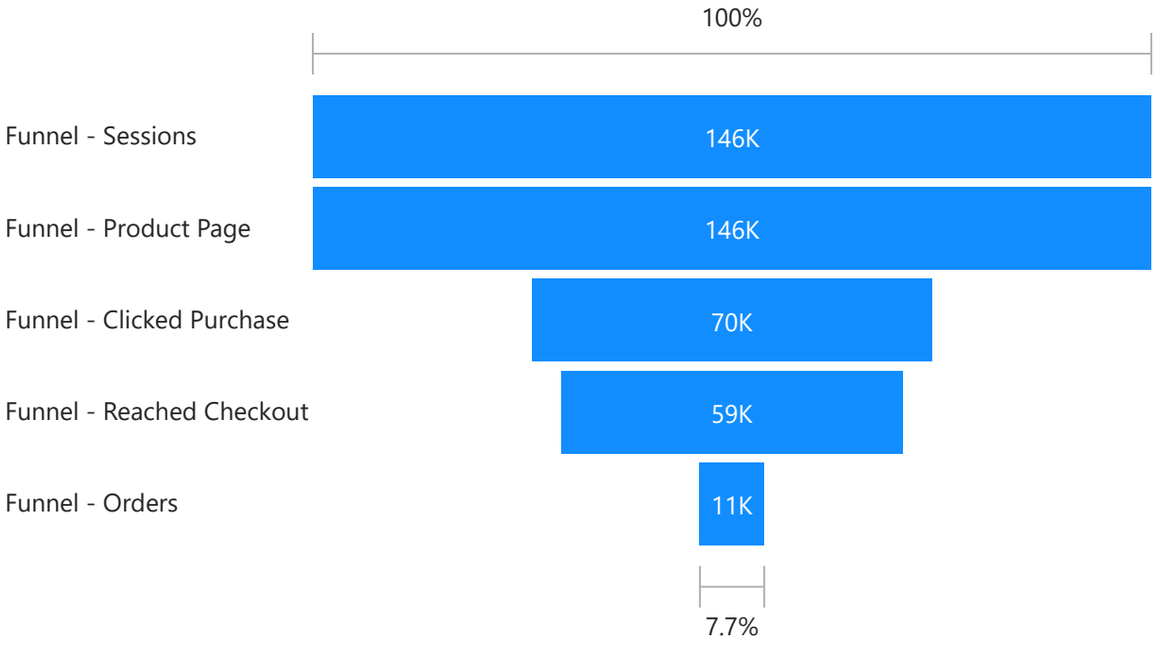
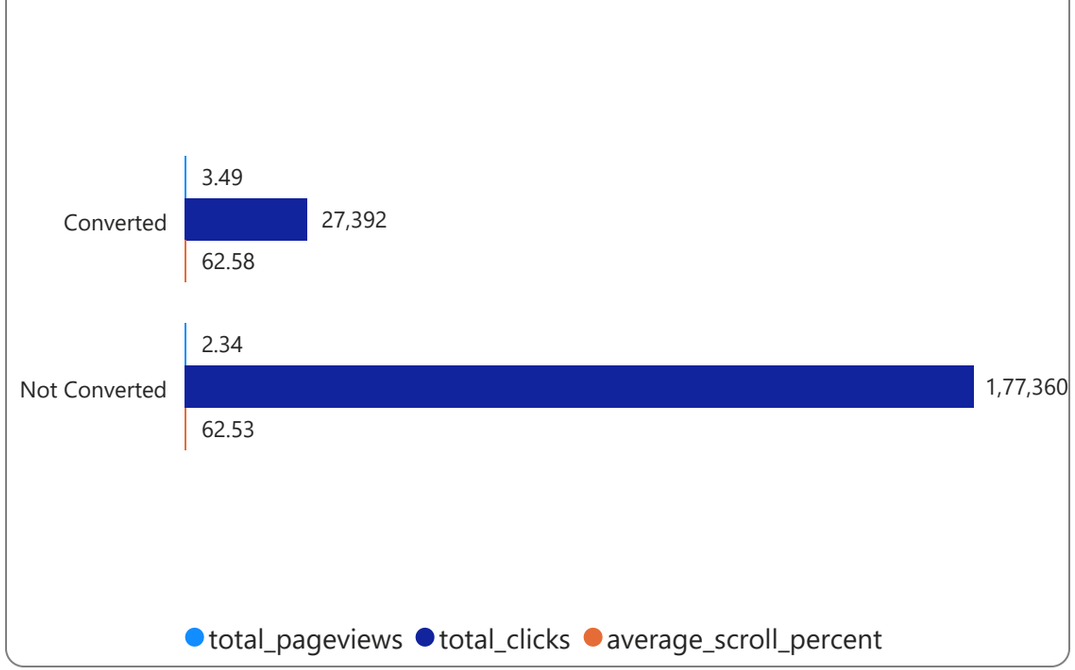
Customer Purchase Funnel



Converted vs Not Converted



All traffic lands on product page but only 32% click a purchase button and just 7.7% complete an order. the biggest drop is at checkout 81% abandonment rate.

Buyers view 49% more pages (3.49 vs 2.34) and click 85% more (2.44 vs 1.32) than non buyers. scroll depth is identical across both groups — engagement quality matters more than scroll behavior.

Marketing Channel Performance

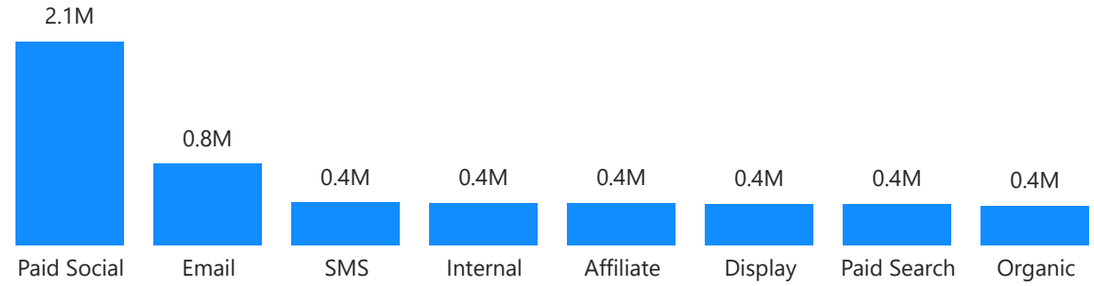
Best Converting Channel

Paid Social
Highest Revenue Channel

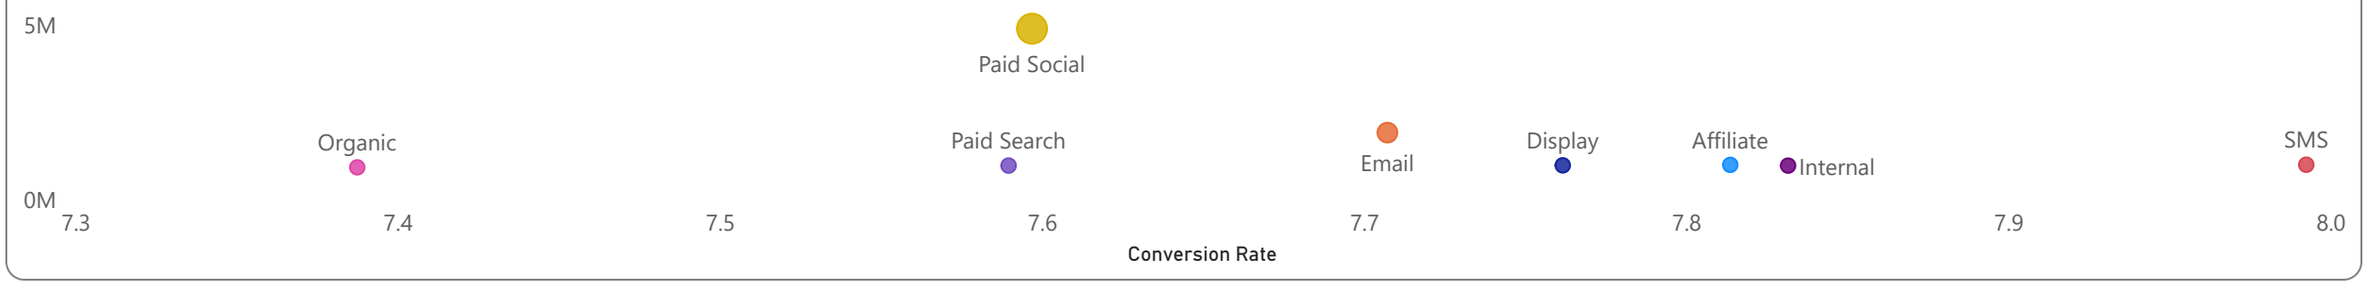
Paid Social
Highest AOV Channel

Average Order Value by Channel

Revenue by Channel



Channel efficiency matrix



Paid Social dominates revenue at ₹2.08M with a competitive ₹489 AOV, but SMS outperforms every channel on conversion rate at 8% proving that high revenue doesn't always mean high efficiency. Organic and Display trail on all three metrics lowest conversion (7.3–7.5%), lowest revenue, and below-average AOV making them the weakest channels in the mix.

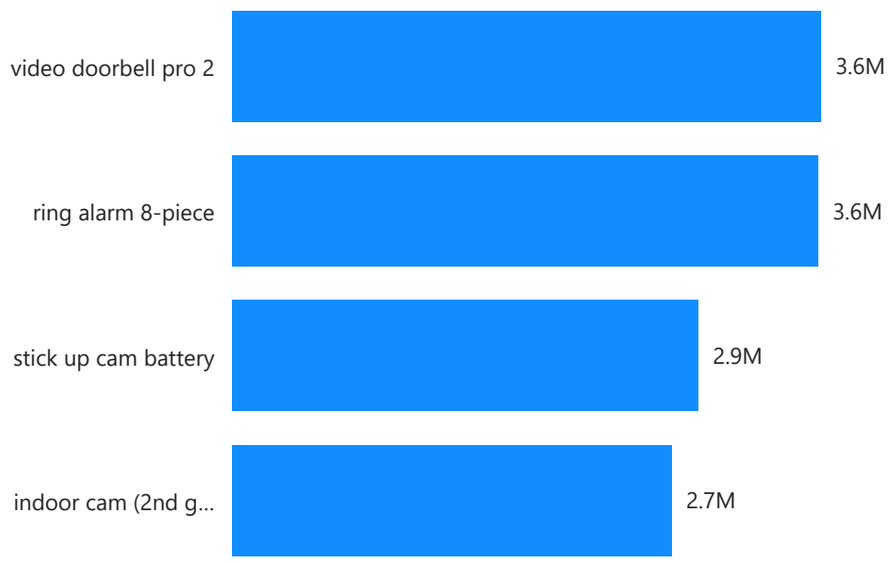
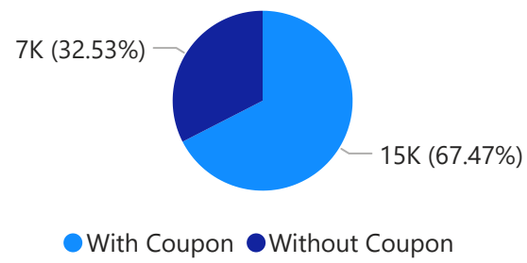
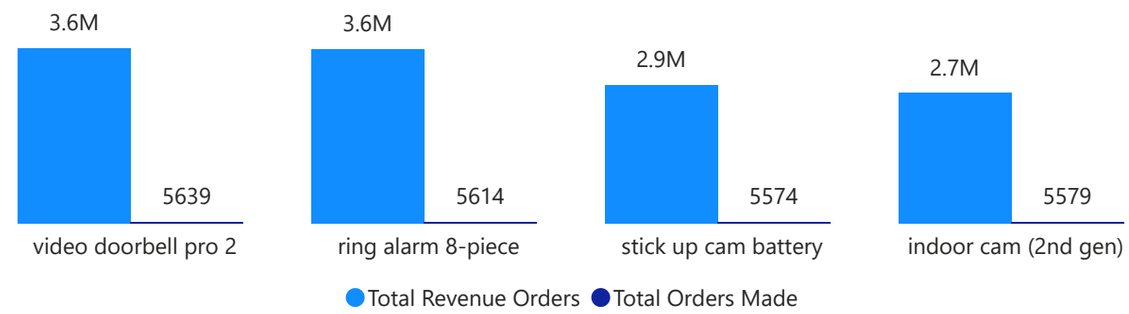
Revenue by Product



Coupon vs Non Coupon Orders



Orders vs Revenue by Product



Video Doorbell Pro 2 and Ring Alarm 8-piece together account for ₹7.2M over 50% of total revenue, confirming heavy concentration in two hero products. 67% of all orders are placed without a coupon, meaning the majority of buyers convert at full price a healthy sign for margins. Converted users are significantly more engaged, averaging 3.49 pageviews and 2.44 clicks per session, while the 13.48% deep scroll CVR and 2.69 no deep scroll CVR shows that users who read thoroughly are far more likely to buy.
